

Assessment Prep with Kognity

IBDP French B

What is this guide for?

This guide is designed to help you make the most out of Kognity as a tool to prepare students for success both in formative assessments and IBDP exam preparation.

How does Kognity help with assessment preparation for IBDP French B?

According to [John Hattie](#), Professor of Education and Director of the Melbourne Educational Research Institute at the University of Melbourne, Australia, feedback is an important driver for improving teaching and learning. Formative assessments play a large role in consistent feedback throughout the year as students prepare for their IBDP exams. Kognity provides efficient tools for immediate feedback to both the student and teacher.

“

“Think of feedback as received, not given.”

John Hattie

For students:

Students can test their speaking, writing, and reading skills through completing activities, comprehension exercises, and vocabulary boxes and receiving immediate feedback on their responses. In addition, at the end of each section, students can complete section questions that are auto-graded, allowing them to receive feedback right away on their progress.

For teachers:

Teachers get immediate feedback on their students' progress through the Questions and Textbook data, located on the insights page. Here, teachers can view a visual representation of student quiz and assignment scores. Teachers can then easily identify those students who need help, which makes intervention fast and efficient.

Below you will find some ways teachers can use Kognity's resources to successfully prepare their students for IBDP French B assessment components.

How does Kognity help with formative assessments?

Revisions Quizzes

Kognity's question assignments can be used as question drills for review at the end of a unit. Teachers can drill students on different topics using multiple choice questions and fill in the blank questions. All question assignments are auto-graded, so students and teachers can immediately receive the results. Teachers can then revise any common mistakes before starting to teach new content.

Short text reading comprehension exercises

As parts/paragraphs of texts are mentioned in related questions, it is easy for teachers to break a long text reading comprehension activity into shorter sections. Creating reading and listening comprehension activities is very time-consuming. This is definitely a plus that teachers will appreciate when using the Kognity book.

How does Kognity help with formative assessments?

Vocabulary Development

Teachers can use the vocab boxes to do the “fill the blank” activities, and later assign a new task where students use these words in a new sentence (to see if they retained the information).

The screenshot shows a quiz titled "Vocabulaire" with the instruction: "Connaissez-vous ces phrases et ces mots ? Dans les phrases ci-dessous, remplissez autant de blancs que possible." There are eight numbered sentences with blank spaces for answers. Below the sentences is a list of words in rounded boxes: gâché, énervant, dépaysement, cloîtrés, génial, perturbée, gommer, and infaillible. At the bottom, there is a "Check" button and a "Reuse" option.

Self-Study

To provide students with resources for self-directed active recall study, use strength tests and battles. These are especially good for grammar. Students can also use self-assessment checklists before a test or exam to help identify areas of weakness, and keep track of their progress with the strength bar.

The screenshot shows a "Strength test" interface. At the top, there are three tabs: "Strength test", "Exam-style questions", and "Strength battle". Below the tabs is a progress bar with five numbered circles, where the third circle is highlighted. The main content area is titled "Question 3" and contains the question: "Si vous aviez le choix, vous une randonnée à dos de chameau ou un tour en montgolfière?". There are four answer options, each with a colored icon and a number: 1 (yellow square) "faisiez", 2 (red diamond) "feriez", 3 (green triangle) "aurez fait", and 4 (orange circle) "auriez fait". At the bottom, there is a "Report feedback" link, a "Previous" button, and a "Next" button.

How does Kognity help with IBDP Exam Preparation?

IBDP Exam Papers

Exam prep is always something students worry about. Kognity is an invaluable tool for these final assessments: students will find that each section in the textbook includes a couple of boxes such as Exam tips which have useful tips to keep in mind when taking exams. Students can quickly go over these when studying for exams.

① Conseil examen

Les questions « Vrai ou faux? » vont peut-être vous sembler faciles. Mais lors de l'examen de compréhension écrite, votre choix entre vrai ou faux et votre justification doivent être validés pour que vous obteniez le point.

Alors, entraînez-vous. Avant de regarder la solution, écrivez votre justification sur une feuille et comparez-la à celle qui vous est proposée.

Le jour de l'examen final:

- Évitez de paraphraser le texte. Vos réponses pourraient être mal interprétées.
- Écrivez ce que vous lisez dans le texte, seulement la partie importante d'une phrase, ou la seule phrase importante du paragraphe.

Si vous écrivez des détails superflus, votre réponse ne sera pas acceptée.

Exam Practice Tasks

Kognity provides exam-style questions and marks schemes that teachers can use in a variety of different ways with their students. For example, teachers can go over a practice paper as a class, write the answer together, and focus on examiner comments.

Exam-style questions

Exam-style questions become available once you have received them in an assignment from your teacher.

0. Présentation

1. Identité

2. Expérience

0 / 12 questions

3. Ingéniosité

0 / 24 questions

4. Organisation sociale (à suivre)

0 / 12 questions

5. Partage de la planète

0 / 12 questions

Questions and answers are written by curriculum experts for Kognity, in the style of past exam questions. They are not official questions or endorsed by the curriculum provider.

Internal Assessment Practice

Section 6 of each subtopic provides sample photos (presentation training) and a set of questions (interactive part)
